

# WBCE CMS v1.5.4 getshell

Exploit Title: WBCE CMS v1.5.4 can implement getshell by modifying the upload file type

Date: 24/11/2022

Exploit Author: 10vexh

Contact: <https://github.com/10vexh>

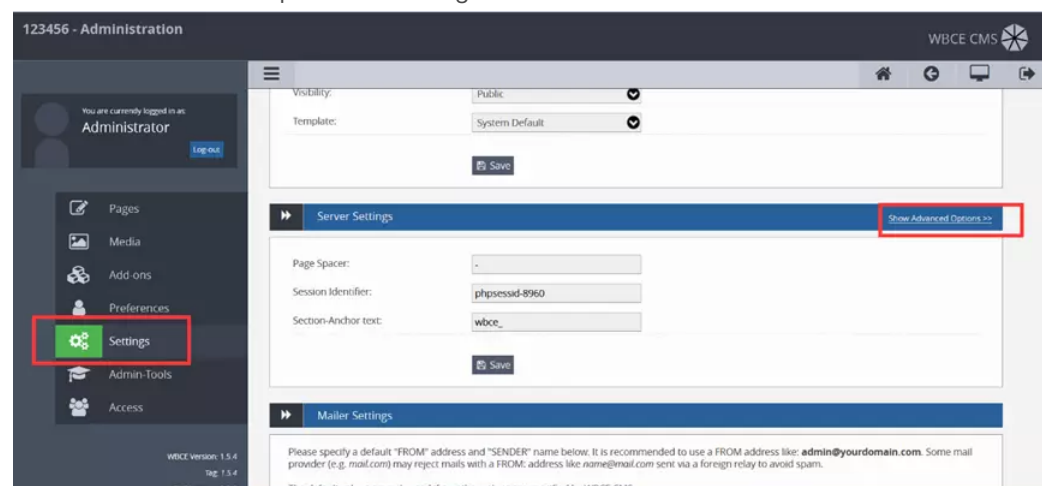

Product: WBCE CMS ([https://github.com/WBCE/WBCE\\_CMS](https://github.com/WBCE/WBCE_CMS))

Version: v1.5.4

Describe: The PHP file can be uploaded by modifying the file type prohibited from uploading in the background, resulting in the getshell.

## Steps to reproduce:

Select show advance options in Settings

Set No upload for this filetypes to null
